

HTML COMMANDS

In the Biosketch Common Form Supplement, the Personal Statement and Contributions to Science sections don't recognize formatting styles, such as bold and italics. Below we provide HTML Commands you can use to display formatting styles.

Please note the HTML Commands count towards the character limit.

HTML Commands	HTML Command examples:	Results
Bold 	Type this sentence in bold	Type this sentence in bold
Italicize <i></i>	<i>Italicize this sentence</i>	<i>Italicize this sentence</i>
Underline <u></u>	<u>Underline this sentence</u>	<u>Underline this sentence</u>
Line Break 	 (this tag does not require a closing tag)	Creates a line break
